Baby Love

Our favorite products for kids and moms-to-be

BY BETSEY MCLAIN

California Baby gets high marks from the nonprofit Environmental Working Group—the brand's No Fragrance Sunscreen Stick was one of the group's top 10 picks in 2009—for offering exceptional UVA/UVB broad-spectrum protection products with minimal health risks. Our fave is the No Fragrance SPF 30 Sunscreen Lotion (\$20), a PABA-free, water-resistant formula that contains a nonchemical titanium dioxide sunscreen and includes organic and sustainably grown ingredients. *Whole Foods Market, 2001 Pennsylvania Ave., 215-557-0015; californiababy.com*

New from **Mustela** are two products that pamper skin of all ages. The Hydra-Stick with Cold Cream Nutri-Protective (\$9.50) is infused with the line's proprietary cold cream formula, which contains shea butter to moisturize and protect skin's outer layers. It glides smoothly onto little chapped lips and noses as well as mom's dry elbows and cuticles. For on-the-go cleanup, try Mustela's Facial Cleansing Cloths with PhysiObébé (\$7.50). The alcohol-free wipes are hypoallergenic and cleanse skin with a citrus-scented, no-rinse formula. *Douglas Cosmetics, 3603 Walnut St., 215-222-2366*
